

Northwind Robotics -- Travel & Expense Reimbursement Policy (Effective 2026-01-01)

1. Meal Per Diem

Employees traveling for business receive a daily meal per diem of \$65 for domestic travel and \$90 for international travel. The per diem covers breakfast, lunch, and dinner combined and does not require itemized receipts.

2. Receipt Requirements

Any single non-meal expense over \$25 requires an itemized receipt uploaded to the Expense Portal within 14 days of the expense date. Expenses without a receipt above this threshold will not be reimbursed.

3. Approval Chain

Expense reports under \$500 require approval from the employee's direct manager only. Expense reports of \$500 or more require approval from both the direct manager and the finance department.

4. Airfare Class

Economy class is standard for flights under 6 hours. Flights of 6 hours or longer qualify for premium economy. Business class requires VP-level approval regardless of flight duration.

5. Reimbursement Timeline

Approved expense reports are reimbursed within 10 business days via direct deposit to the employee's payroll account.
